THE VANS x TAKA HAYASHI PRISON ISSUE LACE LX GOES TRUE AMERICANA.

These days everyone seems to be about "a return to Americana." Note to streetwear: Your roots (and ours) are Piko, konic logo-rigs, and pictures of models we stole off the Internet. So let's get back these soon, please! But before we move from the trend that re-gifts us flannel, beards, and ShmupTown, try on a pair of the new Taka Hayashi collection for Vans. It's as authentic as it gets, and will help ease you onto the next one. \$110. vans.com
