CLAE 2012 Spring Powell

11 minutes ago · Style · by Alec Banks · 46 Views

Thanks to the latest offering from CLAE, one will never have to have the internal monologue debating the merits of wearing either sneakers or wingtips anymore. The Powell is the perfect blend of each element, making it functional for kicking around the city while at the same time exuding a dressed up and business-forward aesthetic. Available mid-February 2012, the gravel nubuck colorway can be seen along side other CLAE offerings for spring [here](#).
